PROGRAM

General Education

The General Education requirement is an essential component of all education programs. The purpose of the General Education requirement is to provide students with a broad range of social and cultural experiences as a foundation for responsible citizenship. This requirement consists of:

- Literature and English courses or Littérature et français*
- Humanities courses
- French second language courses
- Physical Education courses
- Complementary courses

* Based on student eligibility for the English program.

See all the details and the list of courses: ena.ca/aircraft

Student Services

There are a number of resources available to help you with your academic career:

- Academic Advisor
- Available financial aid
- Internship and placement services
- English, French, Humanities and Mathematics study centres
- Residences close to ÉNA: residencesaero.com

For a list of available student housing:
